Dear Hiring Manager

I highly recommend Jess Fogarty for any Content Position. Her time here at Web SEO Online was a real bonus as she is truly a wordsmith who can easily adapt to any new client that was onboarded. She easily grasps new concepts and writes according to the clients' tone and voice. Not only is her skills excellent but so are her communication skills and dedication. She always outdoes herself. She adapted quickly to our company culture and overall worked really well with other departments and team members.

During our time together, Jess displayed great talents in content writing for website content, blogs, SEO articles and more. When we first met, I was immediately impressed with Jess, but during the time we worked together, her understanding of content writing and SEO article writing grew far more than that of her peers.

I am absolutely confident that Jess would be a great fit for your business. Not only will she bring the kind of skills and experiences you're looking for in an applicant, but she will also quickly become an asset and help your business grow in any way she can.

Sincerely,
Sonja Grebe, HOD Social Media Marketing, Web SEO Online
